UNITS Studio

Residence	620	S.F.
Terrace	70	S.F.
Total	690	S.F.

Stated measurements and dimensions are measured to the exterior boundaries of the exterior walls and the centerline of interior demising walls and in fact vary from the dimensions that would be determined by using the description and definition of the "Unit" set forth in the Declaration (which generally only includes the interior airspace between the perimeter walls and excludes all interior structural components and other common elements). This method of measurement used herein is generally used in sales materials and is provided to allow a prospective buyer to compare the Units with units in other projects that utilize the same method. For your reference, the dimensions of the Unit determined as set forth in the Declaration of Condominium is - or - 480 sq. ft. for unit type S. Balconies and terraces are not part of the Unit. Measurements of rooms set forth on floorplans are generally taken at the farthest points of each given room (as if the rooms were a perfect rectangle), without regard for any cutouts or variations. Accordingly, the interior air space dimensions of the actual rooms will typically be smaller than the product obtained by multiplying the stated length and width. All measurements and dimensions are estimates based on preliminary plans which will vary with actual construction. All floorplans, specifications and other development plans are proposed and conceptual only, and are subject to change and will not necessarily accurately reflect the final plans and specifications. The size and configuration of balconies and terraces adjacent to units within this unit type vary. The terrace reflected on this floorplan is among the larger terraces and this floorplan does not reflect the actual size or configuration of the terrace adjacent to each Unit within this unit type. Refer to Exhibit 1 to the Declaration of Condominium for a description of the balcony or terrace adjacent to each Unit.
